

Welcome to visit "Automation Service & Solution" section !

Pls feel free to request all kinds of automation information for your equipments or machines through our sales department by [telst@ms67.hinet.net](mailto:telst@ms67.hinet.net) by return , our experienced automation engineers team will answer all of your questions regarding to FA or motor control immediately, and will provide you the best solution for your equipments or machines by our return information in a short time.

### Service & Solution of FORMOSA Automation Engineering Team

#### ■ Factory Automation (FA)

##### Motor Control & Driver System DESIGN

- Technology a) Position control of AC,DC servo system  
b) Speed control of INVERTER

##### System Integration

- Technology a) All kinds of PLC and MMI software design based on customer's requirement.  
b) ROBOT production line design & set up , both software & hardware.  
c) We have a lot experiences on automation system of  
① Allen-Bradley ② Modicon ③ Simens ④ GE PLC  
⑤ RsView ⑥ InTouch ⑦ Fix Dynamics ⑧ Cimplicity MMI

##### Semiconductor Factory

- Central Utility • PCW control
- Automation Assembly line /machines design & set up.

#### ■ Building Automation (BA)

##### Lighting Control

##### HVAC control

##### Security monitor and interlock control

##### Power System monitor Fire Alarm monitor

#### ■ Enviromental engineering

##### Waste water Treatment engineering

- Technology a) Squencing Batch Reator

##### Incinerator engineering

- Technology a) SCADA
