

ELECTRIC POWER TOOLS

PICK HAS LEFT ITS MARK ON THE HISTORY OF TOOLS' PROGRESS. OUR VARIETY OF POWER TOOLS MAKES WORK A JOY.

PICK power tools are indispensable on modern construction sites. Even in the field of hobbies and recreation, such as DIY (Do It Yourself) and home gardening, people simply cannot do without power tools.

PICK has always led the way in the development of power tools, which makes "work a joy" for both professionals and amateurs alike.

PORTABILITY AND FUNCTIONALITY MAKE OUR TOOLS POPULAR

PICK power tools are the result of our advanced die casting and machining technologies, and our vision toward the new challenges of motor technology. Both portable and functional, our tools come in handy and are a delight to use. Our user-friendly design philosophy and reliable marketing capability plan why our products are so successful.

DESIGNED FOR BOTH PROFESSIONAL AND ENTHUSIASTS, EVEN LAWN AND GARDEN EQUIPMENT ARE AVAILABLE.

PICK provides a variety of portable tools such as drills, planers, and grinders, as well as bench top like table-saws and mortiser to satisfy every conceivable need. Our tools are designed with an emphasis on both suitability and safety; we're out to gain our users' trust. **PICK** also manufactures a variety of lawn and garden equipment including lawn mowers and hedge trimmers, and there are many different **PICK** power tools currently in use.

KNOW CURRENT NEEDS AND SATISFY THEM WITH PROPER PRODUCT DEVELOPMENT

PICK's power tools are powered not only by electricity, but also batteries, small engines, and compressed air. The diversity in power sources is a result of our effort to make our tools more useful and easier to handle. We remain active in product development in order to satisfy current needs by utilizing our advanced technologies and product development skills.
